PRACTICAL ASSIGNMENT – UNIT 5

- 1 Write a CSS which shows a 100px * 100px blue <div> element. The <div> element has also specified a transition effect for the width property, with a duration of 2 seconds.
- 2 Write a CSS which shows <div> element with transition effect and 1 second delay before starting of transition.
- 3 Write a CSS which shows <div> element with transition effect and specifies how many seconds or milliseconds a transition effect takes to complete.
- 4 Write a CSS which shows <div> element with transition effect and specifies the speed curve of the transition effect.
- 5 Write a CSS which shows <div> element with animation effect. The animation will last for 5 seconds, and it will gradually change the background-color of the <div> element from "red" to "yellow".
- 6 Write a CSS which shows <div> element with animation effect with delay of 3 seconds.
- 7 Write a CSS which shows <div> element with animation effect with iteration. (how many times animation should run).
- 8 Write a CSS which shows <div> element with animation effect with reverse direction.
- 9 Write a CSS which shows <div> element with animation effect and specifies the speed curve of the animation.
- 10 Write a CSS which shows <div> element with animation effect with short-hand property.
